

Centrix UFP50 is a premium stencil cleaning roll, non-woven fabric made of polypropylene, which is widely used for various cleaning applications (electronics industry, baby disposable diapers and doctor surgery clothing etc.) because of its features:

- Excellent cleaning properties
- Environmentally friendly
- Non-toxic
- Breathable, soft, easy vacuum passing rate
- Lint-free
- High liquid absorption rate

Technical Specifications

- Composition: Polypropylene (PP)
- Gram Weight: 50 g/m² (Criterion: 45.5 ~ 54.5)
- Thickness: 0.3 mm
- Breaking Strength (CD): 13.4 N/10mm (Criterion: ≥10)
- Breaking Strength (MD): 18.8 N/10mm (Criterion: ≥15)
- Elongation at Breaking (CD): 89.01%
- Elongation at Breaking (MD): 93.56%
- Test Method Standard: FZ/T 64012 (for strength and elongation)
- Storage Conditions: Temperature ≤ 45°C, Humidity ≤ 65%

Important: Due to the material's high absorption rate, the solvent volume should be reduced by at least 50%, thereby minimizing chemical waste and reducing costs.
